Strategia anuală de achiziție publică pe anul 2021 a SPITALULUI CLINIC DE URGENTA SF IOAN

1. Noțiuni introductive

În conformitate cu prevederile art. 11. alin. (3) din din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publică/acordului - cadru din Legea nr. 98/2016 privind achizițiile publice ..*Strategia anuală de achiziție publică se realizează în ultimul trimestru al anului anterior anului căruia îi corespund procesele de achiziție publică cuprinse în acestea, și se aprobă de către conducătorul autorității contractante* ".

Potrivit dispozițiilor art.11 alin. (2) din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publică/acordului - cadru din Legea nr. 98/2016 privind achizițiile publice. Spitalul Clinic de Urgenta Sf Ioan, prin Compartimentul Achizitii Publice Contractare, a elaborat strategia anuală de achiziție publică care cuprinde totalitatea proceselor de achiziție publică planificate a fi lansate de pe parcursul anului bugetar 2021.

Strategia anuala de achiziție publică la nivelul Spitalului Clinic de Urgenta Sf Ioan se poate modifica sau completa ulterior, modificări/completări care se aproba conform prevederilor de mai sus. Introducerea modificărilor si completărilor in prezenta Strategie este condiționata de identificarea surselor de finanțare.

Compartimentul Achizitii Publice Contractare a procedat la întocmirea prezentei Strategii prin utilizarea informațiilor și a cel puțin următoarelor elemente estimative:

- nevoile identificate la nivelul Spitalului Clinic de Urgenta Sf Ioan ca fiind necesare a fi satisfăcute ca rezultat a unui proces de achiziție, așa cum rezulta acestea din solicitările transmise de toate compartimentele de specialitate din Spitalului Clinic de Urgenta Sf Ioan.
- valoarea estimata a achizițiilor corespunzătoare fiecărei nevoi
- capacitatea profesională existentă la nivel de autoritate contractanta pentru derularea unui proces care sa asigure beneficiile anticipate
- resursele existente la nivel de spitalului si, după caz necesarul de resurse suplimentare externe, care pot fi alocate derulării proceselor de achizitii publice.

In cadrul Strategiei anuale de achiziție publica la nivelul spitalului se va elabora **Programul anual al achizițiilor publice și Anexa I (acorduri cadru) si anexa II (privind achizițiile directe)**, ca instrument managerial utilizat pentru planificarea si monitorizarea portofoliului de procese de achiziții la nivelul Spitalului Clinic de Urgenta Sf Ioan.

2. Etapele procesului de achiziție publica care vor fi parcurse în anul 2021

Atribuirea unui contract de achiziție publica/acord-cadru este rezultatul unui proces ce se derulează in mai multe etape.

- Spitalul Clinic de Urgenta Sf Ioan in calitate de autoritate contractanta, prin Compartimentul Achizitii Publice Contractare trebuie să se documenteze si să parcurgă pentru fiecare proces de achiziție publica trei etape distincte:
- etapa de planificare /pregătire, inclusiv consultarea pieței acolo unde este cazul
- etapa de organizare a procedurii si atribuirea contractului/ acordului - cadru

- etapa post atribuire contract/acord-cadru respectiv executarea si monitorizarea implementării contractului/acord-cadru.

Etapa de planificare/pregătire a procesului de achiziție publica

Se initieaza prin identificarea necesitațiilor si elaborarea referatelor de necesitate și se incheie cu aprobarea de către ordonatorul de credite a documentației de atribuire, inclusiv a documentelor suport, precum si a strategiei de contractare pentru procedura respectiva.

Strategia de contractare este un document al fiecărei achiziții cu o valoare estimata egala sau mai mare decât pragurile valorice stabilite la art. 7 alin. 5 din Legea nr. 98/2016 privind achizițiile publice si este obiect de evaluare in condițiile stabilite la art. 23 din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publica /acordului-cadru din Legea nr. 98/2016 privind achizițiile publice

Prin intermediul strategiei de contractare se documentează deciziile din etapa de planificare/pregătire a achizițiilor in legătura cu :

-relația dintre obiectul, constrângerile asociate si complexitatea contractului, pe de o parte, si resursele disponibile pentru derularea activităților din etapele procesului de achiziție publica, pe de alta parte

-procedura de atribuire aleasa, precum si modalitățile speciale de atribuire a contractului de achiziție publica asociate, daca este cazul;

-tipul de contract propus si modalitatea de implementare a acestuia

-mecanismele de plata in cadrul contractului, alocarea riscurilor in cadrul acestuia, masuri de gestionare a acestora, stabilirea penalităților pentru neindeplinirea sau îndeplinirea defectuoasa a obligațiilor contractuale:

-justificările privind determinarea valorii estimate a contractului/acord-cadru, precum si orice alte elemente legate de obținerea de beneficii si/sau îndeplinirea obiectivelor

-justificările privind alegerea procedurii de atribuire in situațiile prevăzute la art. 69 alin. 2-5 din Legea nr. 98/2016 privind achizițiile publice si, dupa caz, decizia de a reduce termenele in condițiile legii, decizia de a nu utiliza impartirea pe loturi, criteriile de calificare privind capacitatea si, dupa caz, criteriile de selecție, criteriul de atribuire si factorii de evaluare utilizați

Etapa de organizare a procedurii si atribuire a contractului/acord-cadru incepe prin transmiterea documentației de atribuire in SEAP si se finalizează odată cu intrarea in vigoare a contractului de achiziție publica /acord cadru.

Având in vedere dispozițiile legale in materia achizițiilor publice, se va realiza un proces de achizitie publica prin utilizarea uneia dintre următoarele abordări, respectiv cu resursele profesionale proprii, resurse necesare celor trei etape mai sus identificate existente.

3. Programul anual al achizițiilor publice

Programul anual al achizitiilor publice pe anul 2021 la nivelul spitalului se elaborează pe baza referatelor de necesitate transmise de compartimentele de specialitate si cuprinde totalitatea contractelor ce achiziție publica/acord-cadru pe care spitalul intenționează sa le atribue in decursul anului 2021.

La elaborarea Programului anual al achizițiilor publice pentru anul 2021 s-a ținut cont de:

- necesitățile obiective de medicamente, materiale sanitare, reactivi, piese de schimb aparatura medicala, prestari servicii, reparatii curente si lucrări
- gradul de prioritate a necesitaților, conform propunerilor compartimentelor de specialitate:
- anticipările cu privire la sursele de finanțare ce urmează a fi identificate.

Dupa aprobarea bugetului, precum si ori de cate ori intervin modificări in bugetul spitalului, Programul anual al achizițiilor publice pentru anul 2021 se va actualiza, in funcție de fondurile aprobate.

Programul anual al achizițiilor publice pentru anul 2021 al spitalului este prevăzut în ANEXĂ I și II la prezenta Strategie și cuprinde cel puțin informații referitoare la :

-obiectul contractului de achiziție publică/acord cadru:

-codul vocabularului comun al achizițiilor publice(CPV)

-valoarea estimată a acordului - cadru ce urmează a fi atribuit ca rezultat al derulării unui proces de achiziție, exprimată în lei, fără TVA, stabilită în baza estimărilor compartimentelor de specialitate;

-sursa de finanțare:

-procedura stabilită pentru derularea procesului de achiziție

- data estimată pentru inițierea procedurii:

- data estimată pentru atribuirea contractului;

-modalitatea de derulare a procedurii de atribuire, respectiv online sau offline.

După aprobarea Bugetului pe anul 2021 și definitivarea Programului anual de achiziții publice pentru anul 2021 al spitalului și în termen de 5 zile lucrătoare de la data aprobării, prin grija Compartimentul Achiziții Publice Contractare, se va publica Programul anual al achizițiilor publice în SEAP și pe pagina de internet a spitalului www.sfib.ro.

De asemenea, semestrial se va proceda la publicarea în SEAP a extraselor din Programul anual al achizițiilor publice pentru anul 2021 al spitalului, precum și a oricăror modificări asupra acestuia, extrase care se referă la contractele/acordurile-cadru de produse și/sau servicii a căror valoare estimată este mai mare sau egală cu pragurile prevăzute la art.7 alin.1 din Legea nr. 98/2016 privind achizițiile publice, contractele/acordurile-cadru de lucrări a căror valoare estimată este mai mare sau egală cu pragurile prevăzute la art. 7 alin. 5 din Legea nr. 98/2016 privind achizițiile publice. Publicarea se va face în termen de 5 zile lucrătoare de la data modificărilor.

Având în vedere dispozițiile art. 4 din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publică 'acordului-cadru din Legea nr. 98/2016 privind achizițiile publice, conform căruia *"prin ordin al președintelui Agenției Naționale pentru Achiziții Publice (ANAP) se pot pune la dispoziția autorităților contractante și a furnizorilor de servicii auxiliare achiziției un set de instrumente ce se utilizează pentru planificarea portofoliului de achiziții la nivelul autorității contractante, fundamentarea deciziei de realizare a procesului de achiziție și monitorizarea implementării contractului, precum și prevenirea și diminuarea riscurilor în achiziții publice"*. Compartimentul Achiziții Publice Contractare va proceda la revizuirea Programului anual al achizițiilor publice pentru anul 2021 al spitalului în vederea punerii de acord cu actele normative ce se vor elabora/aproba în legătura cu prezenta strategie, în termen de cel 15 zile de la data intrării lor în vigoare, sau în termenul precizat în mod expres în actele normative ce se vor elabora/aproba.

4. Sistemul de control intern

Având în vedere noua legislație privind achizițiile publice, ca document de politică internă, sistemul propriu de control intern trebuie să acopere toate fazele procesului de achiziții publice de la pregătirea achiziției până la executarea contractului, iar cerințele efective trebuie diferențiate în funcție de complexitatea contractului de achiziție publică care urmează a fi atribuit.

De asemenea, având în vedere standardele de control intern pentru gestionarea efectivă a procesului de achiziții publice controlul intern va trebui să includă cel puțin următoarele faze: pregătirea achizițiilor, redactarea documentației de atribuire, desfășurarea procedurii de atribuire, implementarea contractului.

Sistemul de control intern trebuie să includă următoarele principii:

- Separarea atribuțiilor, cel puțin între funcțiile operaționale și funcțiile financiare/de plată, persoanelor responsabile cu achizițiile publice și

compartimentele tehnice si economice, cerințe de separare a atribuțiilor care depind de alocarea cu personal, respectiv de resursele profesionale proprii.

-, „Principiul celor 4 ochi” care implica împărțirea clara a sarcinilor in doi pasi: pe de o parte inițierea si pe de alta parte verificarea, efectuate de persoane diferite.

5. Excepții

Prin excepție de la art. 12 alin. (1) din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publica/acord-cadru din Legea 98/2016 privind achizițiile publice, in cazul in care spitalul va implementa in cursul anului 2021, proiecte finanțate din fonduri nerambursabile si/sau proiecte de cercetare dezvoltare va elabora distinct, pentru fiecare proiect in parte un program al achizițiilor publice aferent proiectului respectiv, cu respectarea procedurilor de elaborare cuprinse in legislația achizițiilor publice, a procedurilor prevăzute in prezenta Strategie și a procedurilor operaționale interne.

Având in vedere dispozițiile art. 2 alin. (2) din Legea nr. 98/2016 privind achizițiile publice precum si ale art. 1 din HG nr. 395/2016 pentru aprobarea Normelor metodologice de aplicare a prevederilor referitoare la atribuirea contractului de achiziție publica/acordului-cadru din Legea nr. 98/2016 privind achizițiile publice, cu referire la exceptările de la legislația achizițiilor publice a achizițiilor de produse, servicii si/sau lucrări care nu se supun regulilor legale, se va proceda la achiziția de produse, servicii si/sau lucrări exceptate, pe baza propriilor proceduri operaționale interne de atribuire cu respectarea principiilor care stau la baza atribuirii contractelor de achiziție publica respectiv nediscriminarea, tratamentul egal, recunoașterea reciproca, transparenta, proportionalitatea, asumarea răspunderii.

Spitalul va derula toate procedurile de achiziție numai prin sistemul electronic al achizițiilor publice SEAP. Utilizarea altor mijloace (offline) se va putea realiza numai in condițiile legii si numai pentru situațiile expres reglementate prin lege. Prin excepție de la regula online, procedurile de

achiziție realizate pe baza procedurilor interne proprii, se vor realiza in sistem offline.

6. Prevederi finale si tranzitorii

Spitalul prin compartimentul intern specializat in domeniul achizițiilor, va ține evidenta achizitiilor directe de produse, servicii si lucrări, precum si a tuturor achizițiilor de produse, servicii si lucrări, ca parte a Strategiei anuale de achiziții publice, prin intermediului **software-ului „Hipocrate”** prin care se pot vizualiza rapoarte in orice moment si la orice data programul fiind implementat si complet functional din anul 2015.

Prezenta Strategie anuala de achiziții pe anul 2021 se va publica pe pagina de internet www.sfib.ro.
